Vietnam Dairy Products Joint Stock Company
Statement of the Board of Directors

**STATEMENT OF THE RESPONSIBILITY OF THE BOARD OF DIRECTORS IN
RESPECT OF THE SEPARATE INTERIM FINANCIAL STATEMENTS**

The Board of Directors is responsible for the separate interim financial statements of Vietnam Dairy Products Joint Stock Company (“the Company”) which give a true and fair view of the unconsolidated financial position of the Company as at 30 June 2016 and of the unconsolidated results of operations and unconsolidated cash flows for the six-month period then ended. In preparing these separate interim financial statements, the Board of Directors is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the separate interim financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Directors is responsible for ensuring that proper accounting records are maintained, which disclose, with reasonable accuracy at any time, the unconsolidated financial position of the Company and which enable these separate interim financial statements to be prepared which complies with Vietnamese Accounting Standard 27 – *Interim Financial Reporting*, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting. The Board of Directors is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

APPROVAL OF THE SEPARATE INTERIM FINANCIAL STATEMENTS

We hereby approve the accompanying separate interim financial statements set out on pages 4 to 56 which give a true and fair view of the unconsolidated financial position of the Company as at 30 June 2016, and of the unconsolidated results of operations and cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standard 27 – *Interim Financial Reporting*, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

On behalf of the Board of Directors

Mai Kieu Lien
Chief Executive Officer

Ho Chi Minh City, 29 July 2016

INTERIM FINANCIAL STATEMENTS REVIEW REPORT

To the Shareholders Vietnam Dairy Products Joint Stock Company

We have reviewed the accompanying separate interim financial statements of Vietnam Dairy Products Joint Stock Company (“the Company”), which comprise the separate balance sheet as at 30 June 2016, the related separate statements of income and cash flows for the six-month period then ended and the explanatory notes thereto which were authorised for issue by the Company’s Board of Directors on 29 July 2016, as set out on pages 5 to 56.

Management’s Responsibility

The Company’s Board of Directors is responsible for the preparation and fair presentation of these separate interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Directors determines necessary to enable the preparation of separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express a conclusion on these separate interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements 2410 Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial statements do not give a true and fair view, in all material respects, of the unconsolidated financial position of Vietnam Dairy Products Joint Stock Company as at 30 June 2016 and of its unconsolidated results of operations and its unconsolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

Form B 09a – DN
(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)

(d) Group structure

As at 30 June 2016, the Company had 6 subsidiaries and 2 associates (1 January 2016: 6 subsidiaries and 2 associates) as listed in Note 6(c).

As at 30 June 2016, the Company had 5,227 employees (1/1/2016: 5,189 employees).

2. Basis of preparation

(a) Statement of compliance

The separate interim financial statements have been prepared in accordance with Vietnamese Accounting Standard 27 – *Interim Financial Reporting*, the Vietnamese Accounting System for enterprises and the relevant statutory requirement applicable to interim financial reporting. The Company prepares and issues its consolidated interim financial statements separately. For a comprehensive understanding of the Company’s consolidated financial position, its consolidated results of operations and its consolidated cash flows, these separate interim financial statements should be read in conjunction with the consolidated interim financial statements

(b) Basis of measurement

The separate interim financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method.

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these separate interim financial statements.

The accounting policies that have been adopted by the Company in the preparation of these separate interim financial statements are consistent with those adopted in the preparation of the latest separate annual financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate, respectively, at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the separate statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amount of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(c) Investments

(i) Trading securities

Trading securities are those held by the Company for trading purpose i.e. purchased for resale with the aim of making profits. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less allowance for diminution in value. An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(ii) *Held to maturity investments*

Held to maturity investments are those that the Company's management has intention and ability to hold until maturity. Held to maturity investments include term deposits at bank, corporate bonds, redeemable preference shares which the issuers are required to repurchase at a certain date and granting loans held to maturity. These investments are stated at costs less allowance for impairment.

(iii) *Investments in subsidiaries and associates*

For the purpose of these separate interim financial statements, investments in subsidiaries and associates are initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(iv) *Investment in equity instruments of other entities*

Investment in equity instruments of other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment values if the investee has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(d) *Accounts receivable*

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) *Inventories*

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Company applies the perpetual method of accounting for inventories.

Form B 09a – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(f) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use, and the costs of dismantling and removing the asset and restoring the site on which it is located. Expenditure incurred after tangible fixed assets have been put into operation, such as repair and maintenance and overhaul cost, is charged to the separate statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

- | | |
|----------------------------|---------------|
| ▪ buildings and structures | 10 – 50 years |
| ▪ machinery and equipment | 8 – 15 years |
| ▪ motor vehicles | 10 years |
| ▪ office equipment | 3 – 10 years |

(g) Intangible fixed assets

(i) Land use rights

Land use rights comprise:

- those granted by the State for which land use payments are collected;
- those acquired in a legitimate transfer; and
- rights to use leased land obtained before the effective date of Land Law (2003) for which payments have been made in advance for more than 5 years and supported by land use rights certificate issued by competent authority.

Definite lived land use rights with definite period are stated at cost less accumulated amortisation. The initial cost of land use rights comprises its purchase price and any directly attributable costs incurred in conjunction with securing the land use rights. Amortisation is computed on a straight-line basis over the valid term of land use rights certificate.

Indefinite lived land use rights with indefinite period are stated at cost and not amortised.

Form B 09a – DN
(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)

(ii) Software

Cost of acquiring of new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software is amortised on a straight-line basis over 6 years.

(h) Investment property

(i) Cost

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditure of bringing the property to the condition necessary for it to be capable of operating in the manner intended by management. Expenditure incurred after the investment property held to earn rental has been put into operation, such as repair and maintenance, is charged to the separate statement of income in the period in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of the investment property.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of investment property held to earn rental. The estimated useful lives are as follows:

- | | |
|-------------------|---------------|
| ▪ land use rights | 49 years |
| ▪ infrastructure | 10 years |
| ▪ buildings | 10 – 50 years |

(i) Construction in progress

Construction in progress represents the costs of the construction which has not been fully completed. No depreciation is provided for construction in progress during the period of construction.

(j) Long-term prepaid expenses

(i) Prepaid land costs

Prepaid land costs comprise prepaid land lease rentals, including those for which the Company obtained land use rights certificate but are not qualified as intangible fixed assets under Circular No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance providing guidance on management, use and depreciation of fixed assets, and other costs incurred in conjunction with securing the use of leased land (“Circular 45”). These costs are recognised in the separate statement of income on a straight-line basis over the term of the lease.

Form B 09a – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(ii) Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of tools and instruments are amortised on a straight-line basis over a period ranging from 1 to 3 years.

(iii) Others

Others are recorded at cost and amortised on a straight-line basis over 2 years.

(k) Trade and other payables

Trade and other payables are stated at their cost.

(l) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more (“the eligible employees”) voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee’s compensation at termination. Provision for severance allowance has been provided based on employees’ years of service and their current salary level.

Provision for severance allowance to be paid to the existing eligible employees as at 30 June 2016 has been made based on the eligible employees’ years of service, being the total employees’ years of service less the number of years for which the employees participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Company, if any, and their average salary for the six-month period prior to the end of the accounting period.

(m) Share capital

(i) Ordinary shares

Ordinary shares are stated at par value. Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

30 June 2016 (continued)

Form B 09a – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(ii) Repurchase and reissue of ordinary shares (treasury shares)

When shares recognised as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is recognised as a reduction from equity. Repurchased shares are classified as treasury shares under equity. When treasury shares are sold for reissue subsequently, the amount received is recognised as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

(n) Taxation

Income tax on the unconsolidated profit or loss for the period comprises current and deferred tax. Income tax is recognised in the separate interim statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) Revenue and other income

(i) Goods sold

Revenue from the sale of goods is recognised in the separate statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(ii) Services rendered

Revenue from services rendered is recognised in the separate statement of income in proportion to the stage of completion of the transaction at the balance sheet date. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(iii) Rental income

Rental income from leased property is recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

(iv) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(v) Dividend income

Dividend income is recognised when the right to receive dividend is established.

(vi) Revenue from disposal of short-term and long-term investments

Revenue from disposal of short-term and long-term investments is recognised in the separate statement of income when significant risks and rewards of ownership have been transferred to the buyer. Significant risks and rewards of ownership have been transferred upon the completion of trading transaction (for listed securities) or the completion of the agreement on transfer of assets (for non-listed securities).

(p) Operating lease payments

Payments made under operating leases are recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the separate interim statement of income as an integral part of the total lease expense.

(q) Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(r) Dividend distribution

The Company's net profit after tax is available for appropriation to shareholders as dividends after approval by shareholders at the Company's Annual General Meeting and after making appropriation to reserve funds in accordance with the Company's Charter.

Dividends are declared and paid based on the estimated earnings of the period. Final dividends are declared and paid in the following year from undistributed earnings based on the approval of shareholders at the Company's Annual General Meeting.

(s) Funds

Appropriation to funds is made in accordance with the Company's Charter as follows:

- | | |
|-----------------------------------|-------------------------|
| ▪ Bonus and welfare fund | 10% of profit after tax |
| ▪ Investment and development fund | 10% of profit after tax |

Utilisation of the above reserve funds requires approval of the shareholders, the Board of Directors or the Chief Executive Officer, depending on the nature and magnitude of the transactions involved as stated in the Company's Charter and financial regulations.

(t) Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's primary format for segment reporting is based on geographical segments.

(u) Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by, or under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprises, key management personnel, including directors and officers of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

4. Segment reporting

Segment information is presented in respect of the Company's primary segment, which is the geographical segment.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise assets and liabilities, financial income and expenses, selling expenses, general and administration expenses, other gains or losses, and corporate income tax.

Geographical segments

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers, which is located in Vietnam ("Domestic") or countries other than Vietnam ("Overseas").

(iii) Applicable tax rates

The Company is required to pay income tax at rates ranging from 15% to 20% (for the six-month period ended 30 June 2015: 15% to 22%), depending on principal activities of its factories, on taxable profits.

38. Financial risk management

(a) Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risks.

The Company's Supervisory Board oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(b) Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

(c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

(i) Exposure to credit risk

The total of carrying amounts of financial assets issued represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	Note	30/6/2016 VND	1/1/2016 VND
Cash and cash equivalents	(ii)	2,914,193,147,791	1,067,056,620,801

		<hr/>	<hr/>
		14,025,115,498,930	12,213,996,071,780
		<hr/>	<hr/>

(ii) Cash and cash equivalents

Cash and cash equivalents at banks of the Company are mainly held with well-known financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Company.

(iii) Held to maturity investments

Held to maturity investments include corporate bonds and term deposits. The Company's exposure to credit risk from held to maturity investments is influenced by individual characteristics of the instrument issuer. In managing this risk, the Company management analyses the creditworthiness of the issuer before acquiring the instruments. Management assessed that the issuers had good track records and believe that credit risk on those instruments is low. Held to maturity investments that are term deposits at bank are mainly held with well-know financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Company.

There was no allowance for diminution in the value of held to maturity investments as at 30 June 2016 and 1 January 2016.

(iv) Accounts receivable from customers and other receivables

The Company's exposure to credit risk from accounts receivable from customers and other receivables is influenced mainly by the individual characteristics of each customer. In response to the risk, the Company's management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Credit purchase limit is established for each customer, which represents the maximum open amount without requiring approval from the Chief Executive Officer. The limit is reviewed if needed. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company only on a prepayment basis.

Accounts receivable from customers and other receivables that are neither past due nor impaired are mostly companies with good collection track records with the Company. Management believes that those receivables are of high credit quality.

The aging of accounts receivable from customers and other receivables at period-end that were past due but not impaired was as follows:

	30/6/2016	1/1/2016
	VND	VND
Past due 1 – 30 days	59,550,452,457	57,414,492,023

(d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The financial liabilities with fixed or determinable payments have the following contractual maturities including the estimate interest payments:

(e) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's results of operations or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company is exposed to currency risk on sales and purchases that are denominated in a currency other than the accounting currency of the Company, which is the VND. The currencies in which these transactions primarily are denominated are U.S Dollars (USD) and Euro (EUR).

The Company's exposure to currency risk is managed by keeping the exposure to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term over-exposures.

The principal amounts of the Company's USD bank loans have been fully hedged using forward contracts that mature on the same dates that the loans are due for repayment.

Exposure to currency risk

At the reporting dates, the Company had the following net monetary asset/(liability) position exposed to currency risk:

	30/6/2016		1/1/2016	
	USD	EUR	USD	EUR
Cash and cash equivalents	17,024,492	121,585	22,791,963	19,731
Accounts receivable from customers and other receivables	22,617,558	-	13,886,927	-
Accounts payable to suppliers and other payables	(16,890,260)	(1,282,485)	(24,515,508)	(1,363,805)
	22,751,790	(1,160,900)	12,163,382	(1,344,074)

The followings are the significant exchange rates applied by the Company:

	Exchange rate as at			
	30/6/2016		1/1/2016	
	VND		VND	
	Buying rate	Selling rate	Buying rate	Selling rate
USD 1	22,270	22,340	22,450	22,520

Below is an analysis of the possible impact on the net profit of the Company, after taking into account the current level of exchange rates and the historical volatility as well as market expectations as at reporting date. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecasted sales and purchases:

	Effect to net profit VND
30 June 2016	
USD (1% weakening)	(4,044,000,258)
EUR (1% strengthening)	(231,346,787)
	<hr/>
1 January 2016	
USD (5% strengthening)	10,582,721,426
EUR (6% weakening)	1,554,660,914
	<hr/>

The opposite movement of the currencies would have the equal but opposite effect to the net profit after tax of the Company.

(ii) Interest rate risk

The changes of interest rates would not have significant impact on the net profit after tax of the Company.

(iii) Price risk

The Company invests in equity investments of listed and unlisted companies and is exposed to risks of price fluctuation of these investments. The risk factors affecting the performance of these investments include financial performance and position of invested companies and market conditions. The Board manages the former factor by selecting industries and entities to invest in. The latter factor is itself affected by general economic condition of Vietnam and behaviours of investors, which are all out of the Board's control. These factors have caused conditions to be volatile in the past two years.

For investments in listed securities, if the share prices had increased or decreased by 10% with all other variables including tax rate being held constant, the Company's net profit after tax would not have been significant impacted (for six-month period ended 30 June 2015: VND7,347,809,118 higher or lower).
