#### Vietnam Dairy Products Joint Stock Company and its subsidiaries Statement of the Board of Management

#### STATEMENT OF THE RESPONSIBILITY OF THE BOARD OF MANAGEMENT IN RESPECT OF THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The Board of Management is responsible for the consolidated interim financial statements of Vietnam Dairy Products Joint Stock Company ("the Company") and its subsidiaries (together referred to as "the Group") which give a true and fair view of the consolidated financial position of the Group as at 31 March 2025 and of the consolidated results of operations and consolidated cash flows for the three-month period then ended. In preparing these consolidated interim financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the consolidated interim financial statements on a going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are maintained, which disclose, with reasonable accuracy at any time, the consolidated financial position of the Group and which enable these consolidated interim financial statements to be prepared which comply with Vietnamese Accounting Standard 27 - Interim Financial Reporting, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting. The Board of Management is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### APPROVAL OF THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

We hereby approve the accompanying consolidated interim financial statements set out on pages 6 to 63 which give a true and fair view, in all material respects, of the consolidated financial position of the Group as at 31 March 2025, and of the consolidated results of operations and consolidated cash flows for the three-month period then ended in accordance with Vietnamese Accounting Standard 27 - Interim Financial Reporting, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

#### INTERIM FINANCIAL INFORMATION REVIEW REPORT

#### To the Shareholders Vietnam Dairy Products Joint Stock Company

We have reviewed the accompanying consolidated interim financial statements of Vietnam Dairy Products Joint Stock Company ("the Company") and its subsidiaries (together referred to as "the Group"), which comprise the consolidated statement of financial position as at 31 March 2025, the consolidated statements of income and cash flows for the three-month period then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Management on 28 April 2025, as set out on pages 6 to 63.

#### Management's Responsibility

The Company's Board of Management is responsible for the preparation and true and fair presentation of these consolidated interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Management determines is necessary to enable the preparation of the consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410 – Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### **Auditor's Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not give a true and fair view, in all material respects, of the consolidated financial position of Vietnam Dairy Products Joint Stock Company and its subsidiaries as at 31 March 2025 and of their consolidated results of operations and their consolidated cash flows for the three-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

As at 31 March 2025, the Group had 9,926 employees (1/1/2025: 9,960 employees).

#### II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

#### 1. Annual accounting period

The annual accounting period of the Group is from 1 January to 31 December.

#### 2. Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for consolidated interim financial statement presentation purpose.

#### III. ACCOUNTING STANDARDS AND SYSTEM

#### 1. Statement of compliance

The consolidated interim financial statements have been prepared in accordance with Vietnamese Accounting Standard 27 – *Interim Financial Reporting*, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to interim financial reporting.

#### 2. Basis of measurement

The consolidated interim financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the indirect method.

#### IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been adopted by the Group in the preparation of these consolidated interim financial statements.

The accounting policies that have been adopted by the Group in the preparation of these consolidated interim financial statements are consistent with those adopted in the preparation of the latest consolidated annual financial statements.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 1. Basis of consolidation

#### (a) Subsidiaries

Subsidiaries are those entities in which the Group has control over the financial and operating policies, generally evidenced by holding more than half of voting rights. In assessing control, exercisable potential voting rights are taken into account. The interim financial statements of the subsidiaries are included in the consolidated interim financial statements from the date that control commences until the date that control ceases.

#### (b) Non-controlling interests

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received is recorded directly in retained profits under equity.

#### (c) Loss of control

When the Group losses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated statement of income. Any interest retained in the former subsidiary when control is lost is stated at the carrying amount of the retained investment in the consolidated interim financial statements adjusted for appropriate shares of changes in equity of the investee since the acquisition date, if significant influence in the investee is maintained, or otherwise stated at cost.

#### (d) Associates and joint venture

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Joint ventures are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Associates and joint ventures are those entities in which the Group normally hold 20% to 50% of voting rights in these entities.

Associates and joint ventures are accounted for using the equity method. They are initially recognised at cost, which include transaction costs. Subsequent to initial recognition, the consolidated interim financial statements include the Group's share of the profit or loss of the associates and joint ventures after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an associate or joint venture, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate or joint venture.

GT GT (PI

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### (e) Transactions eliminated on consolidation

Intra-group balances, transactions and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements. Unrealised gains and losses arising from transactions with associates, joint venture are eliminated against the investment to the extent of the Group's interest in the associate or joint venture.

#### (f) Business combination

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

#### 2. Foreign currency

#### (a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate, respectively, at the end of the accounting period quoted by the commercial bank where the Company and its subsidiaries most frequently conduct transactions and has the largest outstanding balance of foreign currencies at the end of the accounting period.

All foreign exchange differences are recorded in the consolidated statement of income.

#### (b) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to VND at exchange rates at the end of the accounting period. Income and expenses of foreign operations are translated to VND at average exchange rates of the period.

Foreign currency differences arising from the translation of foreign operations are recognised in the consolidated statement of financial position under the caption "Foreign exchange differences" in equity.

#### 3. Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amount of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 4. Investments

#### (a) Trading securities

Trading securities are those held by the Group for trading purpose, include those with maturity periods more than 12 months that are purchased for resale with the aim of making profits. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less allowance for diminution in value.

Trading securities shall be recorded when the Group acquires the ownership, in particular:

- Listed securities are recognised at the time of matching (T+0).
- Unlisted securities are recognised at the time the ownership is acquired as prescribed in the Vietnamese laws and regulations.

An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if there is evidence that the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

#### (b) Held-to-maturity investments

Held-to-maturity investments are those that the Group's management has intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank. These investments are stated at costs less allowance for diminution in the value.

Held-to-maturity investments classified as monetary items denominated in foreign currencies are revaluated at account transfer buying rate at the reporting date.

#### (c) Investment in equity instruments of other entities

Investment in equity instruments of other entities is initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Group to lose their invested capital, unless there is evidence that the value of the investment has not been diminished.

The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 5. Accounts receivable

Accounts receivable are monitored in detail of receivable terms, receivable parties, original currency and other factors depending on the Group's managerial requirements. Accounts receivable from customers include trade receivables arising from buying-selling transactions. Other receivables include non-trade receivables, not related to buying-selling transactions. Accounts receivable are classified as short-term and long-term in the consolidated statement of financial position based on the remaining period of these receivables at the reporting date.

Trade and other receivables are stated at cost less allowance for doubtful debts. Allowance for doubtful debts is made for each doubtful debt based on overdue days in payment of principals according to initial debt commitment (exclusive of the debts rescheduling between contracting parties), or based on expected loss that may arise.

Trade and other receivables classified as monetary items denominated in foreign currencies are revaluated at account transfer buying rate at the reporting date.

#### 6. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

The Group applies the perpetual method of accounting for inventories.

#### 7. Tangible fixed assets

#### (a) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use, and the costs of dismantling and removing the asset and restoring the site on which it is located. Expenditure incurred after tangible fixed assets have been put into operation, such as repair and maintenance and overhaul cost, is charged to the consolidated statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### (b) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

	buildings and structures	5 – 50 years
•	machinery and equipment	2-20 years
•	motor vehicles	4 – 10 years
•	office equipment	2 – 12 years
•	livestock	6 years
•	others	3-20 years

#### 8. Intangible fixed assets

#### (a) Land use rights

Definite useful life land use rights are stated at cost less accumulated amortisation. The initial cost of land use rights comprises its purchase price and any directly attributable costs incurred in conjunction with securing the land use rights. Amortisation is computed on a straight-line basis over the valid term of land use rights certificate.

Indefinite useful life land use rights are stated at cost and not amortised.

Land lease rights acquired through business combination are initially recognised at fair value and amortised on a straight-line basis over the term of the lease.

#### (b) Trademark

Trademark acquired through business combinations are initially recognised at fair value and amortised on a straight-line basis over 20 years.

#### (c) Raw material area

Raw material area acquired through business combination are initially recognised at fair value and amortised on a straight-line basis over 18 years.

#### (d) Software

Cost of acquiring of new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software is amortised on a straight-line basis over 2-8 years.

#### (e) Others

Other intangible assets are amortised on a straight-line basis over 4 - 10 years.

NHAI FTY I PMI

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 9. Investment property

#### (a) Cost

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditure of bringing the property to the condition necessary for it to be capable of operating in the manner intended by management. Expenditure incurred after the investment property held to earn rental has been put into operation, such as repair and maintenance, is charged to the consolidated statement of income in the period in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of the investment property.

#### (b) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of investment property held to earn rental. The estimated useful lives are as follows:

definite useful life land use rights
 infrastructure
 buildings
 13 – 50 years
 8 – 10 years
 6 – 50 years

Indefinite useful life land use rights are stated at cost and not amortised.

#### 10. Construction in progress

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

#### 11. Prepaid expenses

#### (a) Prepaid land costs

Prepaid land costs comprise prepaid land lease rentals, including those for which the Group obtained land use rights certificate but are not qualified as intangible fixed assets under prevailing laws and regulations, and other costs incurred in conjunction with securing the use of leased land. These costs are recognised in the consolidated statement of income on a straight-line basis over the term of the leases.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### (b) Tools and instruments

Tools and instruments include assets held for use by the Group in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Costs of tools and instruments are amortised on a straight-line basis over 1-5 years.

#### (c) Others

Others are recorded at cost and amortised on a straight-line basis over their economic useful lives of 1-3 years.

#### 12. Goodwill

Goodwill arises on the acquisition of subsidiaries, associates and joint venture. Goodwill is measured at cost less accumulated amortisation. Cost of goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess is negative (gain from bargain purchase), it is recognised immediately in the consolidated statement of income.

Goodwill arising on acquisition of a subsidiary is amortised on a straight-line basis over 10 years. Carrying value of goodwill arising on acquisition of a subsidiary is written down to recoverable amount as management determines that it is not fully recoverable.

In respect of acquisition of associate and joint venture, the carrying amount of goodwill is included in the carrying amount of the investment and is not amortised.

#### 13. Trade and other payables

Accounts payable are monitored in details by payable terms, payable parties, original currency and other factors depending on the Group's managerial requirements. Accounts payable to suppliers include trade payables arising from transaction of buying-selling transactions and payables for import through entrustees (in import entrustment transactions). Other payables include non-trade payables, not related to buying-selling transactions. Accounts payable are classified as short-term and long-term in the consolidated statement of financial position based on the remaining period of these payables at the reporting date.

Trade and other payables are stated at their cost. Trade and other payables classified as monetary items denominated in foreign currencies are revaluated at account transfer selling rate at the reporting date.

#### 14. Accrued expenses

Accrued expenses include those made for goods, services received from suppliers in the accounting period but not yet paid due to the lack of receipts or supporting documents, are recognised as manufacturing and operating expense in the reporting period based on the term stated in the respective contracts.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 15. Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

#### Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee's compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their average salary for the six-month period prior to the end of the accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Group are excluded.

#### 16. Share capital

#### (a) Ordinary shares

Ordinary shares are stated at par value. Excess of cash received from share issues over par value is recorded as share premium. Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

#### (b) Repurchase and reissue of ordinary shares (treasury shares)

Treasury shares are recognised only in respect of repurchased shares which are aggregated fractions of share arising when the Company issues shares to pay dividends or issues shares from equity reserves in accordance with an approved issuance plan, or repurchased odd-lots of shares as requested by the shareholders. Odd shares are formed by combining odd portions of shares allocated to shareholders proportionally. In all other cases, when shares recognised as equity are repurchased, their par value amount is recognised as a reduction to share capital. The difference between the par value and the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is included in share premium.

#### 17. Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Form B 09a - DN/HN

(Issued under Circular No. 202 2014 TT-BTC dated 22 December 2014 of the Ministry of Finance)

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### 18. Revenue and other income

#### (a) Goods sold

Revenue from the sale of goods is recognised in the consolidated statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

#### (b) Services rendered

Revenue from services rendered is recognised in the consolidated statement of income in proportion to the stage of completion of the transaction at the end of the accounting period. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

#### (c) Rental income

Rental income from leased property under operating lease is recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income over the term of the lease.

#### (d) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

#### (e) Dividend income

Dividend income is recognised when the right to receive dividend is established.

30

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### (f) Income from disposal of short-term and long-term financial investments

Income from disposal of short-term and long-term financial investments is recognised in the consolidated statement of income when significant risks and rewards of ownership have been transferred to the buyer. Significant risks and rewards of ownership have been transferred upon the completion of the trading transaction (for listed securities) or the completion of the agreement on transfer of assets (for non-listed securities).

#### 19. Cost of sales

Cost of sales comprise the cost of products, goods sold and services provided during the period and is recognised corresponding to revenue. Cost of direct raw materials consumed which is over the normal level, fixed labour cost and manufacturing overheads not allocated to finished goods are recorded directly into the cost of sales (after deducting compensations, if any) even if products and goods are not yet determined to be consumed.

#### 20. Revenue deductions

Revenue deductions include sales discounts, sales allowances and sales returns.

In case goods were sold or services were provided during the reporting period but the related sales discounts, sales allowances or sales returns occur in the following period, revenue deductions are recognised in the reporting period only if such deductions occur prior to the issuance of the consolidated interim financial statements.

#### 21. Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense, over the term of the lease.

#### 22. Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

Form B 09a - DN/HN

(Issued under Circular No. 202 2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 23. Dividend distribution

The Company's net profit after tax is available for appropriation to shareholders as dividends after approval by shareholders at the Company's Annual General Meeting and after making appropriation to reserve funds in accordance with the Company's Charter.

Advance dividends are declared and paid based on the estimated profits of the year. Final dividends are declared and paid in the following year from undistributed profits based on the approval of shareholders at the Company's Annual General Meeting.

#### 24. Funds

Appropriation to funds is made in accordance with the Company's Charter as follows:

Bonus and welfare fund

10% of profit after tax

Investment and development fund

10% of profit after tax

Utilisation of the above funds requires approval of the shareholders, the Board of Directors or the Chief Executive Officer, depending on the nature and magnitude of the transactions involved as stated in the Company's Charter.

#### 25. Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Company (after appropriation to bonus and welfare fund for the accounting period) by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares.

#### 26. Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format for segment reporting is based on geographical segments.

#### 27. Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by, or under common control with, the Group, including holding companies, subsidiaries and associates are related parties of the Group. Enterprises and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the enterprises, key management personnel, including directors and officers of the Group and close members of the family of these individuals and enterprises associated with these individuals also constitute related parties.

Form B 09a - DN/HN

(Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### 28. Comparative information

Comparative information in these consolidated interim financial statements is presented as corresponding figures. Under this method, comparative information for the prior period is included as an integral part of the current period consolidated interim financial statements and are intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in these consolidated interim financial statements is not intended to present the Group's consolidated financial position, results of operation or cash flows for the prior period.

The Group's investment property represented land use rights, buildings and infrastructure held for earning rental income.

At the reporting date, the Group has not determined fair values of investment property held to earn rental for disclosure in the consolidated interim financial statements because there is currently no guidance on determination of fair value using valuation techniques under the Vietnamese Accounting Standards or the Vietnamese Accounting System for enterprises. The fair values of investment property held to earn rental may differ from their carrying amounts.

Included in the cost of investment property held to earn rental were assets costing VND17,887 million which were fully depreciated as at 31 March 2025 (1/1/2025: VND17,887 million), but which are still in active use.

#### 9. Long-term work in progress

Long-term work in progress represented cows under 16 months of age, which will be transferred to tangible fixed assets under livestock category at the end of the 16 months period, when the cows are ready for milk production.

#### (d) Global minimum top-up tax

On 29 November 2023, the National Assembly of Vietnam passed a resolution to introduce Income Inclusion Rule ("IIR") and Qualified Domestic Minimum Top-up Tax ("QDMTT"), which broadly align with Pillar Two ("BEPS 2.0") of the Global Anti-Base Erosion Model Rules of the OECD with effect from 1 January 2024. The resolution requires large multi-national enterprises to pay a global minimum corporate income tax of 15% on profit in each jurisdiction in which they operate.

#### 11. Basic earnings per share

The calculation of earnings per share for the three-month period ended 31 March 2025 was based on the profit attributable to ordinary shareholders after deducting the amounts appropriated to bonus and welfare fund and a weighted average number of ordinary shares outstanding, calculated as follows:

#### (a) Net profit attributable to ordinary shareholders

Three-month period ended		
31/3/2025 VND	31/3/2024 VND	
1,568,482,188,101	2,194,666,965,600	
(159,085,225,749)	(221,892,111,398)	
1,409,396,962,352	1,972,774,854,202	
	31/3/2025 VND 1,568,482,188,101	

#### (b) Weighted average number of ordinary shares

	shares	shares
Issued ordinary shares at the beginning of the period and weighted average number of ordinary shares during the period	2,089,955,445	2,089,955,445

As at 31 March 2025, the Group did not have potentially dilutive ordinary shares.

Form B 09a – DN/HN (Issued under Circular No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### VII. OTHER INFORMATION

## 1. Significant transactions with related parties

In addition to related party balances and transactions disclosed in other notes to the consolidated interim financial statements, the Group had the following significant transactions with related parties during the period:

			Three-month	Three-month period ended

#### 2. Segment information

Segment information is presented in respect of the Group's primary segment, which is the geographical segment.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise assets and liabilities, financial income and expenses, selling expenses, general and administration expenses, other gains or losses, and corporate income tax.

#### Geographical segments

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers, which is located in Vietnam ("Domestic") or countries other than Vietnam ("Overseas"). Segment assets and capital expenditure are not presented since most of assets and production facilities are in Vietnam.
